PRISONERS OF OUR IDEALS

Northwater. Paperback. Book Condition: New. Paperback. 442 pages. Dimensions: 9.0in. x 6.0in. x 1.1in. My core purpose for writing this book is to offer a clear defense of the real world of biological materialism against several reproaches made by the world of idealism. The dominance of Idealism in the Western world, in the forms of religion, mysticism, superstition and mans genuine wondering about the workings of the natural world, began in early human civilization. Everyone who was anyone had his or her own favored theory of where or when mysticism and the superstition of religion originated. Lack of genuine scientific knowledge of the biological world led to various explanations to answer the question of why we existed. This fundamental question was finally answered by the Darwinian theory of natural selection. The idealists answer would be that we were created by God. This is the fundamental division between the biological materialists world of natural selection and the idealists belief in the creation of the world. Scientific materialism covers the relationship between Matter Over Mind and the basic proposition from biological science that living matter existed before mankind, that the mind did not appeared until the organic matter of the brain was organized with the complexity for it to think. In dealing with the concept of Idealism, the reader should be aware the as Prisoners of Idealism we follow the premise of Mind Over Matter delusion and that this delusion has become destructive in a very real and personal way. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
