At the same time I shall aim to do more. This is a busy age, and neither time nor money is abundant. There are multitudes who would gladly see upon their tables the delicious berries in their season, and if they knew how easily and readily they could be raised, would certainly cultivate them. But having made some crude experiments with but poor, or partial success, they come to think that some mystery is involved and that before they can grow small fruits themselves there must be considerable outlay, reading or practical instruction. But nature is not so chary of her best gifts and like the sunshine, she places strawberries within the reach of all who own or hire a few square feet of land.
