### ***Reviews***

*This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).*

***(Prof. Buddy Leuschke)***

## PROGRAMA TOMAR DECISIONES ALUMNO

Laertes. Book Condition: New. Esta guía didáctica es el complemento indispensable para la aplicación del «Programa para aprender a tomar decisiones», cuaderno de actividades para el alumno de la ESO, editado en esta misma colección. El programa consta de once unidades de trabajo, muy centradas en el estudio independiente de los alumnos. A pesar de que el cuaderno del alumno puede funcionar como un recurso autoaplicado, el tutor, no obstante, precisará adaptar los contenidos de cada unidad al marco de referencia y contextos propios de su centro educativo. Por eso, la guía didáctica presenta además de una introducción a la teoría de las decisiones profesionales, un conjunto de sugerencias específicas para cada unidad, mostradas siempre bajo el mismo esquema: a)Cuál es el objetivo de la unidad; b) Conceptos básicos vertidos en ella; c) Metodologías de intervención más adecuadas a cada ejercicio y/o ejemplo; d) Actividades complementarias y de enriquecimiento; y e) Listado comentado de recursos alternativos. La filosofía subyacente a esta guía didáctica es permitir que cada orientador, psicopedagogo o tutor sepa no sólo utilizar las unidades, sino también ir creando y desarrollando sus propias herramientas para su acción tutorial. La aportación genuina de cada profesional es clave para la diseminación de los conceptos vocacionales en el curriculum escolar.
